

PROVIDER-SPECIFIC AMENDMENT/RIDER

Issued by United Healthcare Insurance Company

AMENDMENT SCOPE AND EFFECTIVE DATE

Effective Date: January 1, 2025 **Policyholder:** [Employer Group / Individual Name]
Certificate/Policy Number: [Insert Number] **Amends Document ID:**
w14_united_healthcare_detailed_policy_004

THIS RIDER amends the above-referenced policy (the "Policy") solely as described herein. The provisions of this Rider are specifically restricted to the Provider Network elected by the Policyholder (the "Designated Network") and do not alter benefits for any other network tier unless expressly stated. All terms used herein shall have the meanings assigned in the Policy, except as modified below. In the event of any conflict between the Policy and this Rider, the terms of this Rider shall govern for the Designated Network. This Rider is not intended to expand coverage beyond the scope of the Policy's existing grant of benefits; rather, it adjusts certain cost-sharing amounts, prior authorization requirements, visit limits, and other administrative conditions specific to the Designated Network. The effective date shown above is the date upon which the modifications contained herein become operative for covered services incurred on or after that date; services incurred prior to the effective date shall be processed under the terms of the unamended Policy. This Rider is subject to all Policy provisions regarding termination, renewal, and eligibility. Copies of this Rider have been distributed to enrolled subscribers and are available through the online member portal.

Designated Network Description

The Designated Network consists of providers who have contracted under the "United Healthcare Select Plus" tier. Services obtained outside this network are subject to the Out-of-Network terms in the Modified Coverage Terms section, even if a referral originates from an in-network provider. The network directory, available at [website], is incorporated by reference and updated quarterly. Any provider who ceases to participate in the Designated Network will be considered out-of-network for services rendered after the termination date, except for ongoing care subject to the Policy's continuity of care provisions, which are not altered by this Rider.

MODIFIED COVERAGE TERMS

In the tables and text below, all dollar amounts are in U.S. currency. Copayments, deductibles, and coinsurance shown apply **per calendar year** unless otherwise indicated. The following terms replace the corresponding benefit descriptions found in the Policy's "Schedule of Benefits" and the section titled *Definitions and General Provisions*.

In-Network Benefits (Designated Network)

Benefit Category	Cost-Sharing Amount / Limit
Calendar Year Deductible (Individual/Family)	\$1,500 / \$3,000
Out-of-Pocket Maximum (including deductible, copays, coinsurance)	\$6,500 per individual / \$13,000 family
Emergency Room Copayment (waived if admitted)	\$250 per visit

Outpatient Mental Health Visits (combined individual & group psychotherapy)	20/year, \$40 copay per visit; additional visits require prior authorization and are subject to 50% coinsurance after deductible
Pre-Existing Condition Waiting Period	None (ACA compliant) - no waiting period applies; coverage begins on the Policy's effective date.
MRI Prior Authorization Requirement	Required, 5-day turnaround - see footnote ¹
Prescription Drug Benefit	4 tiers; see table below

¹ *Substantive footnote:* The 5-day turnaround for MRI prior authorization requests means that United Healthcare will issue a determination within five (5) business days of receipt of a complete request, including all necessary clinical information. If the request is deemed incomplete, the turnaround clock resets upon receipt of the missing documentation. Emergency and urgent MRI studies do not require prior authorization when performed in an emergency department or inpatient setting. Non-compliance with the prior authorization requirement for non-urgent outpatient MRI scans will result in a denial of coverage, and the member will be fully responsible for the provider's charges.

Prescription Drug Tiers

The plan maintains exactly **4 tiers** for covered prescription medications. The following table details the tier structure and member cost-sharing for a 30-day supply at network retail pharmacies. Mail-order (90-day supply) is available at 2.5 times the retail copay. Specialty drugs are limited to Tier 4 and require use of the designated specialty pharmacy.

Tier	Description	Retail Copay (30-day)
Tier 1	Preferred Generic	\$10
Tier 2	Preferred Brand / Non-Preferred Generic	\$40
Tier 3	Non-Preferred Brand / Select Biologics	\$80
Tier 4	Specialty / High-Cost Injectable	30% coinsurance, max \$250

Drugs not on the formulary are covered only through the Policy's exception process. The Preventive Drug List may waive cost-sharing for certain tiers when prescribed for specified chronic conditions.

Out-of-Network Coverage When services are obtained from a provider that is not part of the Designated Network, the following terms apply, except for emergency services which are reimbursed under the Policy's emergency care provisions at the in-network level after the ER copay. The out-of-network benefit is subject to a separate calendar year deductible and coinsurance, as follows: **Out-of-Network Coverage: 60% after \$3,000 deductible.** The out-of-pocket maximum for out-of-network care is not combined with the in-network maximum and is set at \$12,000 per individual. The Plan will reimburse 60% of the *allowed amount* for covered services after the member has satisfied the \$3,000 deductible. The allowed amount is determined using the lesser of the billed charge or the prevailing rate for the geographic area based on the Centers for Medicare & Medicaid Services (CMS) fee schedule for similar services, not the provider's full charge. Any amount above the allowed amount does not count toward the deductible or out-of-pocket maximum and is the member's responsibility (balance billing). Pre-authorization requirements apply equally to out-of-network services; failure to obtain prior authorization for non-emergency out-of-network services reduces the reimbursement to 40% with no out-of-pocket maximum protection. Out-of-network mental health visits are not subject to

the 20-visit limit but are reimbursed at 50% after deductible, and the member pays the remaining charge.

Regarding durable medical equipment (DME), the in-network coinsurance is 20% after the deductible applies; out-of-network DME is covered only if prior authorized and at 60% after the out-of-network deductible. Bariatric surgery is excluded entirely under this Rider, even if the Policy previously included limited coverage. This exclusion supersedes any contrary language in the Policy's "Exclusions" section.

SUPERSEDED PROVISIONS

This Rider specifically amends the **Definitions and General Provisions** section of document ID w14_united_healthcare_detailed_policy_004, as well as any conflicting terms in the Schedule of Benefits, Exclusions, and Utilization Review sections. The following is a non-exhaustive list of Policy provisions that are wholly or partially superseded by the terms of this Rider. In all cases, the Modified Coverage Terms above control.

- **Definition of "Deductible"** - The Policy's definition of the annual deductible is replaced by: "The amount of covered expenses a member must pay per calendar year before the Plan begins to pay benefits, as set forth in the Provider-Specific Rider." The in-network deductible of **\$1,500** overrides any previous dollar amount, including any embedded deductible provisions. For family coverage, the aggregate family deductible remains at two times the individual deductible.

- **Definition of "Out-of-Pocket Maximum"** - The Policy's out-of-pocket maximum definition is amended to the specific limit of **\$6,500** per individual for in-network, as displayed in the Modified Coverage Terms. The prior limit of \$5,000 is hereby deleted and of no effect.

- **"Emergency Services Copayment" provision** - Any reference to a copayment amount for emergency room visits is amended to read: **\$250** per visit. This copay is not waived if the member is admitted directly from the ER, but the inpatient hospital copay (see next item) is then applied in addition.

- **"Advanced Imaging Authorization"** - The Policy's utilization review provisions are supplemented by: **MRI Prior Authorization: Required, 5-day turnaround**. This replaces any shorter turnaround time or automatic approval that may have existed in prior riders or plan documents. The requirement applies to all non-emergent outpatient MRIs, MRAs, and CT angiograms performed in any setting.

- **"Mental Health and Substance Use Disorder Benefits"** - The Policy's visit limits and copayments for outpatient mental health are replaced by: **20/year, \$40 copay**. This visit limit applies per calendar year and is not combined with substance use disorder counseling, which remains at 12 visits per year with a \$30 copay. All visits beyond 20 require medical necessity review.

- **"Pre-Existing Condition Exclusion"** - The Policy's pre-existing condition exclusion, if any still appears in older certificate language, is formally deleted and replaced with: **None (ACA compliant)**. This affirms that no pre-existing condition waiting period applies, in compliance with the Affordable Care Act.

- **"Out-of-Network Reimbursement"** - The Policy's methodology for out-of-network benefits is entirely restated by the terms: **Out-of-Network Coverage: 60% after \$3,000 deductible**. This replaces any previous coinsurance percentage or deductible amounts for non-network providers,

including any reference to a \$1,500 deductible for network and non-network combined.

- **"Prescription Drug Benefit Tiers"** - The Policy's drug rider is amended to reflect **4 tiers**, with the tier definitions and cost-sharing as shown in the Prescription Drug Tiers table. Any prior 3-tier or 5-tier structure is rescinded. The Policy's separate mail-order copay multipliers are retained but apply to the new tiers.

- **General Provisions - Conflict Resolution** - The Policy's standard "Order of Precedence" clause is amended to insert this Rider immediately after the Policy document and ahead of any summary of benefits and coverage (SBC) or benefit summary. Thus, if a conflict exists between the SBC and this Rider, the Rider language prevails.

All other Policy provisions not expressly modified herein remain in full force and effect. The invalidity of any part of this Rider shall not affect the remainder.

This Rider has been reviewed and approved by the Department of Insurance under form number UHC-RIDER-PSN-2025-01.
